

Krakow, February 26, 2024

The Henryk Niewodniczański Institute of Nuclear Physics Polish Academy of Sciences
announces a competition for the position
ADIUNKT /post-doc/ - AP-ZFM-2/24
in Cyclotron Center Bronowice /CCB/

Deadline for application :	Expected term of employment:	Type of contract:	Number of positions:	Application address:
May 15th 2024	Second half of 2024 for a fixed period up to 33 Months	contract of employment, full-time at IFJ PAN as the only place of work	1	 jobs@ifj.edu.pl

<https://www.ifj.edu.pl/en/career/recruitment-procedures.php>

I. Keywords:

Proton therapy, dosimetry, nanodosimetry.

II. Description:

A person employed as an adjunct (post-doc) for a fixed period up to 33 Months at the Cyclotron Center Bronowice - CCB at IFJ PAN will be obliged to participate in work on research topics and projects implemented and planned for the nearest period at the CCB.

The basic tasks of the employed person will include:

- Development of experimental nanodosimetry using existing and newly developed detectors at CCB IFJ PAN, including:
 - o Ion Counting Nanodosimeter, which will be transferred from PTB to CCB IFJ PAN in mid-2024;
 - o Fire Nanodosimeter, which will be transferred from the University of Zurich to CCB IFJ PAN in mid-2024;
 - o prototype of a single-chamber nanodosimeter currently being developed at CCB IFJ PAN as part of a doctoral project under the ProtoTerra program at CCB IFJ as a host institution for the doctoral student.

The employed person will also be obliged to disseminate the results of research in the form of publications in leading scientific journals indexed in the JCR and speeches during seminars and conferences, including international ones. This person will also be obliged to apply for external funding for research.

III. Required qualifications:

- doctor degree in physical sciences or related disciplines,
- qualifications necessary to carry out research tasks carried out at CCB,
- knowledge of the research topics of nanodosimetry,
- experience in the field of nanodosimetry,
- work skills in cooperation with interdisciplinary team,
- very good knowledge of spoken and written English,
- research predisposition,
- the ability to organize the work of a detector laboratory,
- planning, responsibility, and excellent time management skills.

Welcome:

- Interest in further development in a scientific position leading to habilitation.

IV. Salary offered

A person employed for a fixed period up-to 33 Months as an adjunct (post-doc) will receive a monthly basic remuneration from **PLN 5,500.00 gross**, which depends on the candidate's achievements. The total amount of remuneration will be increased by **allowances** for: length of service and working under conditions of exposure to ionizing radiation (if applicable).

V. General information

Detailed rules of the competition are specified in the Terms and Conditions of Recruitment of Adjuncts and Research Assistants adopted by the IFJ PAN Scientific Council on April 12, 2021 and accessible at:

<https://www.ifj.edu.pl/en/career/documents/terms-and-conditions-adjunct-research-assistant.pdf>

Candidates applying for employment in IFJ PAN are required to contact the head of the Cyclotron Centre Bronowice, Associate Professor Renata Kopeć, at an early stage, who may ask the candidate to deliver a seminar before submitting the application and then the Head of the CCB submits employment recommendation to the Competition Committee.

VI. Required documents

The list of required documents is included in the rules of the competition:

<https://www.ifj.edu.pl/en/career/documents/terms-and-conditions-adjunct-research-assistant.pdf>
